Since joining the hospital in 2019, I have remained committed to supporting my colleagues and advocating for the rights and interests of our members. I began my union leadership journey in 2020 as Local Secretary, a position I have proudly held for two terms. In late 2023, I took on the role of Bargaining Unit President, further strengthening my commitment to representing and supporting our membership.

Throughout my time in these roles, I have worked hard to ensure that every member has a voice, feels supported, and has someone they can turn to for guidance and advocacy. I believe effective union leadership is built on dedication, accountability, open communication, and a willingness to stand up for our members and protect their rights.

I am seeking re-election to both positions because I believe strong, consistent representation is essential to protecting our rights and advancing the interests of our membership. I bring valuable experience, a strong sense of responsibility, and a continued commitment to serving our members. I am proud of the work we have done together and recognize that there is still more to accomplish.

I would sincerely appreciate your continued support and the opportunity to continue serving as your Local Secretary and Bargaining Unit President. I remain committed to listening to our members, standing up for their rights, and working together to ensure our voices are heard.

In solidarity,

Samantha Redick
